

VISMAYA PRADEEP

Software QA Engineer

• Doha, Qatar • +974 51747478 • vismayapradeep996@gmail.com

PROFESSIONAL SUMMARY

Results-driven Software QA Engineer with 4.5+ years of experience in Manual Testing, Automation Testing, and Quality Assurance across Oracle Cloud PLM, enterprise web applications, and healthcare solutions. Proven expertise in designing comprehensive test strategies, developing automation frameworks using Selenium, Java, Cucumber BDD, TestNG, and Maven, and ensuring software quality throughout the SDLC/STLC lifecycle. Experienced in Agile environments, defect lifecycle management, regression testing, API validation support, and continuous collaboration with cross-functional teams including Business Analysts, Developers, Product Owners, and Validation teams. Demonstrated success in improving test efficiency, reducing production defects, enhancing automation stability, and delivering high-quality enterprise software for global clients including Thermo Fisher Scientific.

CORE COMPETENCIES

Manual Testing | Automation Testing | Functional Testing | Regression Testing | Smoke Testing | Sanity Testing | Integration Testing | End-to-End Testing | User Acceptance Testing Support | Test Planning | Test Strategy | Test Execution | Defect Lifecycle Management | Defect Reporting | Bug Verification | Requirement Traceability Matrix (RTM) | Agile Scrum | Sprint Testing | SDLC | STLC | Risk Analysis | Test Documentation | Test Reporting | Oracle Cloud PLM | Healthcare Domain Testing | Web Application Testing | Cross-Functional Collaboration

PROFESSIONAL EXPERIENCE

Software QA Engineer

2021 - 2025

Vaisesika Consulting Pvt. Ltd.

- Performed end-to-end Manual and Automation Testing for Oracle Cloud PLM enterprise applications serving global business operations.
- Executed Functional, Regression, Smoke, Sanity, Integration, and User Acceptance testing across multiple releases.
- Developed and enhanced Selenium Automation Framework using Java, TestNG, Maven, and Cucumber BDD.
- Improved automation reliability by implementing dynamic XPath strategies, significantly reducing script maintenance efforts.
- Designed, reviewed, and executed comprehensive test cases based on business and functional requirements.
- Created and maintained Requirement Traceability Matrix (RTM) ensuring complete test coverage.
- Collaborated closely with Developers, Business Analysts, Product Owners, and Validation teams to resolve defects efficiently.
- Managed defect lifecycle using Jira and HP ALM from logging through verification and closure.
- Participated actively in Agile ceremonies including Sprint Planning, Daily Stand-ups, Sprint Reviews, and Retrospectives.
- Produced detailed test execution reports, defect metrics, and release quality reports.
- Conducted regression testing before production deployments to ensure application stability.
- Supported compliance and validation activities for Oracle Cloud PLM implementations.
- Contributed towards organizational CMMI quality initiatives through collaboration with CSV teams.
- Mentored junior QA resources on testing best practices and documentation standards.

Key Achievements

- Reduced automation script failures by approximately 20% through implementation of dynamic XPath strategies.
- Improved overall automation productivity by approximately 30% using Selenium-Java-Cucumber BDD framework enhancements.
- Optimized testing effort by prioritizing critical business scenarios, reducing overall execution time by nearly 40%.
- Successfully supported quality assurance for multiple Oracle Cloud PLM implementations within Thermo Fisher Scientific.
- Enhanced defect identification during sprint cycles, contributing to improved release quality and faster issue resolution.

Trainee Software Engineer (QA)

2020 - 2021

Camerinfo Pkts Pvt. Ltd.

- Learned and applied Software Development Life Cycle (SDLC) and Software Testing Life Cycle (STLC) processes.
- Prepared test cases based on Functional Requirement Specifications (FRS).
- Performed Manual Testing of enterprise web applications.
- Executed Functional, Smoke, Regression, and Retesting activities.
- Participated in walkthroughs, peer reviews, and quality review meetings.
- Verified Entry and Exit criteria before release cycles.
- Reported software defects and validated fixes before deployment.
- Assisted senior QA engineers in improving testing documentation and execution quality.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science & Engineering - 2020

2016 - 2020

Anna University, Chennai, JCT College of Engineering & Technology, Coimbatore

CGPA: 80.02%

KEY PROJECTS

Oracle Cloud PLM – Customer Channel Group (CCG)

Thermo Fisher Scientific

- Performed functional and regression testing for Oracle Product Fusion implementation.
- Validated product lifecycle workflows and business processes.
- Supported release validation and defect management activities.

Oracle Cloud PLM – CMD

- Performed application validation for Oracle Cloud Product Lifecycle Management modules.
- Executed end-to-end testing of enterprise workflows.

Malbec CLM

Thermo Fisher Scientific

- Conducted functional testing and regression validation.
- Verified business process integration and application quality.

AI Automation Framework

- Contributed to Selenium Java automation framework development.
- Enhanced framework stability using dynamic XPath implementation.
- Improved automation execution efficiency.

Intelligent Transport Management System

- Performed software testing and requirement validation.

Home Automation using Arduino

- Academic engineering project involving embedded system automation.

CERTIFICATIONS

- Google Cloud Generative AI
- Selenium Automation Testing (Project Experience)
- Cucumber BDD Framework (Project Experience)
- Agile Scrum Methodology
- Oracle Cloud PLM Testing (Project Experience)

TECHNICAL SKILLS

Testing Tools: Selenium WebDriver, Cucumber BDD, TestNG, Maven

Programming: Java

Test Management & Defect Tracking: Jira, HP ALM

Version Control & CI/CD: Git, GitHub, GitHub Actions

Web Technologies: HTML, CSS

Platforms: Windows, Android, Web Applications

Methodologies: Agile Scrum, SDLC, STLC, Requirement Traceability Matrix (RTM)

ADDITIONAL INFORMATION

- Nationality: Indian
- Visa Status: Company Visa (Without NOC)
- Languages: English, Malayalam, Tamil, Hindi
